

Impact 4: Women, peace and security, humanitarian action and disaster risk reduction

Data as of: 8 May 2024

Selected Strategic Plan:

2022–2025

Year Selected: **2022**

Women and girls contribute to, and have influence in, building sustainable peace and resilience and benefit equally from the prevention of conflicts and disasters, and from humanitarian action.

Impact indicators In 2022

SP_D_4.2

The data comes from the five UN-led processes that were ongoing in 2022 (Georgia, Syria, Yemen, Libya, and Sudan) and is not a global average.

Percentage of women mediators, negotiators, and signatories in major peace processes (Desk Review)

Common:
