Women survivors of VAWG have increased access to quality, comprehensive services

OUTCOME DETAILS

SDG alignment

Impact areas

Ending violence against women

Organizational outputs

Positive social norms

Access to services, goods and resources

Women's voice, leadership and agency

Policy Marker

GENDER EQUALITY

Humanitarian Scope

Outcome Description

The outcome focuses on increasing access to basic services for the survivors of violence, especially those in Women Protection/Guidance Centres. It supports tailored catalytic projects that enable women in accessing to legal aid, psycho-social supports, health and economic opportunities--as part of the ERAW National Strategy and its Action Plan (2016); and Women Economic Empowerment National Priority Programme (2016)

	2022 (Target)	-	0

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Women survivors of VAWG have increased access to quality, comprehensive services

There has been some progress on this outcome. In the light of a constrained operating context women civil society organizations are operating, UN Women Afghanistan strategy and approach has been to provide support to CSOs to deliver coordinated, comprehensive support to women and girl survivors of violence, with some elements of awareness raising integrated in programming, which have reached at least 1,673 people (f-860; m-813). This was done primarily through funding support, institutional capacity development, as well as work to develop standard operation procedures (SOPs), guidelines, guidance for VAWG services, in line with international standards developed and/or updated with the support of UN Women. During the reporting year, a total of 21 civil society organizations (CSO) partners have received support to operate across 12 provinces of Afghanistan. Through the operations of Women Protection Centers (WPCs), 193 survivors of violence and 57 accompanied children accessed coordinated, quality, essential services during the year 2022. Through the operation of Family Recourse Centers (FRCs), 9,834 women accessed coordinated, quality, essential services during the year 2022. Furthermore, during the reporting period, UN Women Afghanistan provided technical assistance to the Essential Services Network (ESN) to find a consensus on governance structure and objectives of the network, which has been mobilized to ensure increased access to comprehensive and coordinated GBV services. Thus far the original strategy and ToC for this outcome is largely still applicable. However, the renewed risk to safety and security, movement restrictions and ban on NGO workers, will have extensive impacts on the feasibility of women and girl survivors and those at risk of violence to access quality, comprehensive services. This also comes with risks and anticipated regression on progress and operations. Therefore, the ToC and accompanying programme strategy is being reviewed for 2023 to allow for greater flexibility, innovation and focus

on prevention.
