Women and girls participate in and benefit from socio-economic recovery opportunities in the context of peace and resilience-building

OUTCOME DETAILS

SDG alignment

Impact areas

Women, peace and security, humanitarian action and disaster risk reduction

Organizational outputs

Norms, laws, policies and institutions

Financing for gender equality

Positive social norms

Access to services, goods and resources

Outcome Description

UNW will, in partnership with identified gender advocates and CSOs, leverage results of the 2 2019 studies for advocacy and policy support to the UNCT and government: 'Search for gender-responsive durable solutions for better economic recovery', 'Eliminating gender gap in agriculture', and 'Gender gap in Energy sector. UNW will, support the over 39,000 women and girls involved in 2,253 IGA around rice, plantain, palm oil, and livestock to organize into cooperatives, to enable them scale up, exchange experiences, improve access to funding/financing and engage new strategic partners during the covid 19 pandemic period.

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

Women and girls participate in and benefit from socio-economic recovery opportunities in the context of peace and resilience-building

With 2023, 13, 343 Women and girls participated in and benefited from socio-economic recovery opportunities in the context of peace and resilience-building. In terms of empowerment and income generating activities, the results achieved are: 213 Leaders, including 197 women and 16 men, benefited from capacity building in the fight against GBV, leadership, innovative entrepreneurship and positive masculinity. 147 women members of RMI solidarity groups operating in value chains have had their capacity to draw up business plans strengthened. 28 women leaders of the Association des Femmes Actrices de Paix et de Dialogue (AFAPD) were strengthened, notably in project development and resource mobilization for the network of women mediators. 316 members of social therapy groups in the project's communes received technical assistance. 1,429 resident women, 56 repatriated women and 29 displaced women have benefited from technical and economic capacity-building, notably in the development of micro-projects in agriculture, livestock breeding, trade and the processing of certain products. 1,750 beneficiaries, including 1,610 women and girls and 140 men, benefited from capacity-building on the laws governing cooperatives, in collaboration with ANACCOP. 60 people (30 men and 30 women) responsible for cooperatives/enterprises respectively in Commune Butihinda on the notion of good governance in cooperatives and the role of entrepreneurship in peacebuilding. 5509 members, including 4923 women and girls and 586 men and boys in 185 functional agricultural cooperatives have been supported for their income generating activities. 41 men and 92 women benefiting from IGAs to improve their livelihoods, often in a precarious economic situation, refugee women, girls, boys and men benefiting from these IGAs become more autonomous and improve their financial management systems. In terms of strengthening women, girls, men and boys' capacities to transform and add value to local food products for household consumption, the followings results are reached: 700 participants (600 women and girls and 100 men and boys) leaders have been mobilized by UN Women in collaboration with the Office of the First Lady OPDD Burundi, other United Nations agencies (WFP, UNICEF, WHO, UNDP, World Bank, UNFPA) contributed significantly to the organization of a high-level forum of women leaders through various presentations and panels, as well as messages shared with other women leaders from other countries, notably Rwanda, Zanzibar,

Kenya, Cote d'Ivoire, Equatorial Guinea, China, Congo Brazzaville, not forgetting delegations from the regional offices of UN Women and Unicef. 446 people, including 243 women and 203 men, were trained, and made aware of good nutritional practices. In terms of humanitarian actions, the following results have been reached: 769 patients, including 430 women, 234 children under 5 and 105 men, were treated free of charge. 1,934 people (1,145 women and girls and 789 men and boys) were made aware of the importance of family planning, prenatal consultations (especially early ones), child immunization, good child nutrition, childbirth in a health-care setting, unplanned pregnancies, sexually transmitted diseases and breast cancer, the fight against malaria and diseases of the hands (intestinal parasites). 37 women and girl leaders from Bujumbura province have been integrated into the mixed security committees and can participate in developing humanitarian programs that integrate women's needs into the humanitarian response plans of their respective communes. These supports have helped the beneficiaries to recover from illness and then continue household's activities without any problem. For those who have been integrated in the committees, they will advocate for women's matters to be integrated at the communal planification. In terms of ICT, 102 young girls (17-25 years old) have been supported to increase women participation and action in ICT sector through AGCCI project within: All the 102 young girls within 7 Batwa girls have participated in two coding camps organized by UN Women in collaboration with 3 Ministries (ICT, Gender and Education) where they have been capacitated in: (i) raise their awareness of gender inequality issues and encourage them to become advocates for gender equality in the ICT sector, (ii) have acquired knowledge in computer science, coding, design thinking, the fourth industrial revolution including artificial intelligence, Machine Learning, Deep learning and robotics; (iii) have been made aware of the SDGs, digital issues and the positive use of social networks; (iv) have acquired an entrepreneurial spirit, a spirit of female empowerment and personal development and (v) have been sensitized to the notion of Eliminating Gender Stereotypes. The 6 best young girls' project in the two coding camps (3 from each of them) received an award made of A laptop and a Samsung Galaxy Android to encourage them and allow them to continue their project. For all the 102 young girls, they received each one an Android cell phone which will allow them to stay in touch in the local platform and the regional one with their peer around the 10 involved countries in AGCCI Project and facilitate them to continue working on the development of their project. All of them have developed their own applications addressing different thematic areas from all the 17 SDGs and they will continue benefiting UN Women support to go ahead with their projects. This will lead to self-employment creation and esteem and leadership. The trainings were given by a team of 6 trainers (3 women, 3 men) where, with UNW Laise Office in Addis Ababa support, they were recruited, and they contributed to implement the project by conducting these two round training coding camps. To allow the participation of many young girls to this programme, 4 multimedia centers have been equipped in for provinces of Burundi. This will reduce the young women access gap which exist between provinces and benefit to generations of young girls. These coding camps became a good opportunity of a good coordination of 4 Ministries (ICT, Gender, Education and Home Affairs) on one side, UN Agencies (UN Women, PNUD, WB, UNICEF) and Private sector (CBFIB-ICT Chamber) and advocacy for a better inclusion of young women in ICT domain and in labor market.
