STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

Regional and national laws, policies, systems and institutions improve access to justice and promote peace, social cohesion and security (MSCDF Outcome 7)

UN Women MCO - Caribbean supported regional and national entities and governments with the finalisation and approval of national plans and policies on gender and GBV in Jamaica, Trinidad and Tobago, and regionally with the development of a revised CARICOM Gender Equality Policy. UN Women supported capacity building on gender-responsive budgeting, and national GRB assessments in 3 countries to provide evidence for decision-making and sustained financing to address VAWG. The office continued to support institutional strengthening, through the rollout of the gender-responsive policing programme in Trinidad and Tobago, and support for Parliamentarians to increase their joint advocacy on issues related to Gender and GBV. UN Women continued to utilise evidence-based approaches toward the prevention of VAWG, including the rollout of the Foundations Programme in Guyana, Grenada, Jamaica and Trinidad and Tobago, and the rollout of the Partnership for Peace (PfP) rehabilitation programme in Antigua and Barbuda. The PfP programme also benefitted from a major overhaul and update, to address new and emerging issues related to VAWG, since its inception over 15 years prior, and to address lessons learned including operational constraints in its implementation. This programme is being adapted and implemented by Judiciaries within the region, following several successful workshops and sensitisation efforts in 2023. Significant strides were made in data availability and capacity, including the development and approval of CARICOM guidelines and protocols on the collection and use of administrative data on VAWG, and a multi-country study on the Economic Costs of Violence Against Women and Girls, launched in Jamaica, and completed in Guyana and Grenada. The MCO also worked to support 23 civil society organisations in prevention and response efforts, through the small grant funding modality aimed at increasing technical substantive capacity of

organisations working on EVAWG. The office also convened regional networks of civil society through intergenerational dialogues and fora, and supported Civil Society Reference Groups to produce sustainability plans during UN Women-funded workshops and by providing technical expertise. The MCO strengthened multi-sectoral partnerships, including supporting 15 new WEPs signatories in Guyana with the development of Gender Action Plans, and 8 signatories with the development of Domestic Violence policies. The MCO was successful in launching the concept of Women, Peace and Security to the Caribbean region by supporting Trinidad and Tobago's membership in the global WPS Focal Point Network and hosting a National Workshop on WPS in collaboration with the Governments of Trinidad and Tobago and Canada, to address growing security concerns within the region, and to support women's active participation in peacebuilding and social cohesion. The Government of Trinidad and Tobago invited UN Women to join the special advisory group on WPS, to develop the first National Action Plan on Women, Peace and Security, in 2024.
