SHOWING DATA OF : **2022**

By 2025, Governance systems are more inclusive, accountable, effective and have quality data and people live in an environment where the rule of law, labour rights, gender equality, peace and security are respected and effective

Côte d'Ivoire has a quota law that promotes the representation of women in elected assemblies with the institution of a 30% quota for women on the lists of candidates presented by political parties or groups of parties for the election of deputies, senators, regional councillors, district councillors and municipal councilors. During the year 2022 and as a prelude to the local elections of 2023, support was provided to the Ministry in charge of Women and to the Independent Electoral Commission (CEI) to propose to the Government a draft electoral code harmonized with the law on the quota (a reformulation of 4 articles (articles 78, 117, 156 al. 4 and 187 al. 4) of the electoral code). The adoption of this electoral code is underway. Also, Côte d'Ivoire is the 1st African country to have adopted in 2018 a Nation Action Plan for the implementation of Resolution 1325. During the year 2022, precisely on July 13, the Government gave the Ministry in charge of Women during the Council of Ministers to finalize, with a contribution from the State Budget, the process of elaborating the 2nd generation of NAP of R 1325 in the light of the evolution of the national and international security contexts, notably the expansion of violent extremism. In accordance with this agreement, the NAP 2 R 1325 (2023-2027) document has been finalized. Its formal adoption by the Government is scheduled for the first quarter of 2023. In addition, the CO also support the development of the National Strategy for the Development of Statistics 2023-2027 is under preparation and the Ministry of Planning plans to launch it during the year 2023.
