STRATEGIC NOTE OUTCOME PROGRESS NOTE SHOWING DATA OF : 2022

Communities of the PDET municipalities prioritized by the National Government improve their well-being through the design and implementation of strategies within the framework of the PDET roadmap, with a differential and gender approach, and with the support of the UN Country Team as a complement to the efforts of the Colombian State (UNSDCF 1.2)

In 2022, UN Women Colombia made significant progress on outcome 1.2 (on track). Strong support was provided to peace implementation at the local level, including via a new gender policy of the Territorial Renewal Agency (ART) and the implementation of gender-specific initiatives at the local level, including via calls for proposals for civil society organizations. UN Women contributed to mainstreaming gender in the roadmap of the Development Plans with Territorial Approach (PDET) by formulating technical guidelines, provision of capacity building and implementation of productive projects. In particular, UN Women contributed to the implementation of 3 initiatives labeled “women and gender” in PDET Municipalities: Contribution to the new public policy on gender equality of the ART. As a part of this effort, UN Women raised awareness with 669 persons from PDET municipalities regarding gender approach, elimination of GBV, sexual and reproductive rights; delivered capacity building to 88 civil servants of the ART and local entities in Darien and Riosucio in Chocó; to monitor the incorporation of the gender approach in PDET initiatives in partnership with SENA and supported women’s productive initiatives. Ethno-development plans with a gender focus: With UN Women’s support, four (4) Community Councils in PDET municipalities developed a document that compiles input regarding the socio-political context, challenges faced by the community and their proposals on identity, cultural autonomy, territorial development, and social welfare, together with a proposal and recommendations for action. The inputs were developed through participatory spaces with women of the 4 Community Councils. Developed safe spaces for women (adaptation of two houses in Riosucio and Darien in Chocó). Moreover, during the year, UN Women achieved substantive results in the implementation of its strategy to prioritize young women thanks to the implementation of a new Joint Programme funded by the PBF GYPI for the participation and advocacy of young women in civic spaces of Cauca and Nariño. In particular, the programme is supporting 7 organizational processes of diverse young women and 4 innovative initiatives for the care of life, the non-repetition of armed conflict and peacebuilding with a gender approach. Also, the capacities of

educative Institutions of Riosucio and Cuvaradó in Chocó were strengthened. To conclude, Thanks to competitive funding mechanisms for civil society led by the Technical Secretariat of UN Women together with the programme team, over 50 CSOs have been implementing projects (and/or were selected) as a part of the Women’s Peace and Humanitarian Fund (WPHF), PBF GYPI and Koica call for proposals. In particular, with the support of the Women’s Peace and Humanitarian Fund , the CO is strengthening the capacities of women victims of internal forced displacement and for women’s participation in peacebuilding. 26 CSOs (including afrocolombian, ex-combatants and transgender women CSOs) are implementing projects that have already benefited 2,254 women, young women and men . These include 10 small grants that are strengthening the organizational capacities of local CSOs. With the support of KOICA , the CO selected 26 initiatives (and related CSOs) to promote rural women’s leadership in agricultural local businesses in the context of peace implementation with a focus on PDET municipalities.
