STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

The national government and territorial governments, in particular category 5 and 6 municipalities, implement gender equality policies, plans, programmes and projects with the support of the United Nations Country Team and in accordance with national government guidelines (UNSDCF 3.2)

In 2022, UN Women Colombia made significant progress on outcome 3.2 (on track). With the support of Sweden, UN Women contributed to a multi-stakeholder effort for greater women's political participation in elections, which led to the election of 29.2% of women in Congress, (19% elected in previous ones), as well as to position the gender agenda in the new Congress. Still with Sweden, UN Women provided technical support for the institutional redesign of the National Gender Mechanism, which contributed to the creation of the new Ministry of Equality. In addition, the Office supported the incorporation of gender in the new National Development Plan 2022 - 2026, by promoting women's role in the participatory mechanism, as well as by providing key data: "Women and Men in Colombia". Thanks to its alliance with the Swedish Embassy, a multi-stakeholder effort coordinated by the Gender Roundtable of International Cooperation (MGCI) was promoted (including training strategies, capacity building, communication, and partnerships) which contributed to almost 30% of women being elected in the new Congress. In the same framework of its alliance with Sweden, UN Women provided inputs to the Legal Commission for Gender Equity of the Congress of the Republic (Women's Caucus) for the analysis and discussion of structural legal reforms that include parity and violence against women in politics, the gender approach in the Tax reform and the creation of the Ministry of Equality. UN Women also provided support to the National Congress for the inclusion of the gender approach in its legislative activity through capacity-building strategies and the provision of technical inputs. As a part of the development of the National Development Plan 2022-26, UN Women provided the National Government with inputs for the inclusion of the gender approach such as the situation of women in the sports sector, women and girls with disabilities, the gender gaps between men and women and the priorities defined with women's organizations and planning advisers. The national government, in alliance with UN Women and the Embassy of Canada, counts on a strategy to promote public management with a gender approach in prioritized sectors to accelerate the closing of gender gaps. Territorial governments have made public investment projects visible

through the implementation of the Gender Budget Tracker as a strategic tool for the equality agenda. UN Women also supported the production of inputs from Civil Society Organization for the development of a Fiscal Policy with a gender approach-. UN Women –in alliance with Bogot´’s Mayor Office—contributed to the development of a District Care System in Bogot´ D.C, as well as to the implementation of a public management strategy with a gender approach through the development of the District Distinction Bogot´ in Equality. With the technical support of UN Women and strategic allies, 7 sixth-category municipalities in Nariño (Barbacoas, Leiva, Policarpa, Cumbitara) and Cauca (Buenos Aires, Caldono, Piendamó) received technical support to incorporate the gender approach into their planning and budgeting processes with the support of UN Women and KOICA. Also, as a part of the agreement implemented and funded by the Pasto Mayor's Office and Nariño Local Government, the gender perspective was strengthened in local public policies.
