STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Women and girls fully and equally participate in leadership and decision-making processes and benefit from gender-responsive governance.

The outcome was not fully achieved, but important progress has been made. Women’s Political Participation (WPP): S ome progress has been made towards women and girls fully and equally participating in leadership and decision-making processes and benefiting from gender-responsive governance. Women in the region are more prepared for greater leadership roles and to run for election through the UN Women Campaign and Leadership Curriculum implementation in Türkiye and Kazakhstan . To support this, the RO provided high-level advocacy and technical support in Georgia, Kosovo, North Macedonia, Kyrgyzstan, Kazakhstan, Turkey, Uzbekistan, and in regional fora where Member States, parliamentarians, civil society, practitioners, and academia convened to advance implementation of the normative framework on women’s political participation . ECARO also collaborated with regional partners, including the OSCE’s Office for Democratic Institutions and Human Rights (ODIHR), on contributions to knowledge products, regional events, and assistance for national partners to push for implementation of commitments on women’s leadership and gender responsive governance. M ore remains to be done to ensure that women can fully participate in decision making processes in ECA. Structural barriers, including threats and violence against women in politics hamper equal representation and participation of women in decision making. The proportion of women still falls well below parity. Harmful social norms still tightly restrict women’s engagement in the public sphere and persist in society. Women from marginalized groups and young people still need to be fully included in decision-making processes. Women Peace and Security (WPS): S ignificant progress has made in the region. Georgia and Kyrgyzstan adopted National Action Plans (NAPS) on 1325, Ukraine updated its NAP, and Armenia, Azerbaijan, Uzbekistan drafted NAPs for the first time. ECARO provided support to offices and partners to share experiences and best practices. Over 450 women peacebuilders, mediators, activists, women leaders, women’s organizations, and diverse stakeholders enhanced their awareness of the WPS-HA agenda dialogues on WPS at the regional and global levels. The dialogues contributed to some new commitments, including through the COMPACT on Women Peace and Security in Humanitarian Action (WPD-HA). Advocates seeking to advance implementation of the WPS agenda have access to 16

knowledge products. UN Peace and Development Advisors have access to regional conflict and gender tools. UN Women contributed to these results through facilitation of dialogues and meetings and bringing its expertise and experience as well as providing a multi-stakeholders platform allowing a meaningful contribution by all respective partners. Based on the progress made to date, the theory of change (ToC) remains valid and applicable. ECA will intensify its efforts due to the ongoing war and multiple crisis to advance both WPS and WPP in the region.
