STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

The judicial system improves the efficiency of its procedures to reduce the delays in processing judicial cases

An evaluation was conducted during the reporting year on a project that was closed and the following recommendations were outlined: - Implement a rigorous monitoring, evaluation and accountability system to systematically monitor the progress of actions and collect feedback from the population concerned -Ensure the permanent availability of social agents who can intervene in all the prisons to provide psychosocial support -Have coordination mechanisms in place to properly assess needs, coordinate and evaluate the actions of partners to avoid duplication and also to measure the effects and impacts of interventions with a larger team. Follow up meetings have been organized with the prison directorate.
