STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

More Syrian women refugees and vulnerable Jordanian women are better served by humanitarian action and resilience-building initiatives

Significant progress has been towards the achievement of the outcome. The humanitarian stakeholders involved in the refugee response to the Syria crisis and the COVID-19 response in Jordan increased their accountability to gender equality and the empowerment of women and girls through the implementation and monitoring of an Action Plan on Gender in Humanitarian Action (GiHA) for the Jordanian humanitarian response by the Humanitarian Partners Forum (HPF). The implementation of this Action Plan in 2022 strengthened the gender-responsiveness of Jordan's humanitarian system, structures and expertise to deliver on the World Humanitarian Summit and IASC Gender Policy commitments, against the baseline set out in the inter-agency GiHA Review finalised on behalf of the HPF in 2022. The development, implementation and monitoring of this plan was led by UN Women as co-chair with UNHCR of the GiHA Reference Group. In addition, humanitarian stakeholders increased their accountability to gender-responsive localisation. Specifically, stakeholders used a baseline report against the HPF Localization Monitoring, Evaluation, Accountability and Learning (MEAL) framework to develop and operational plan to enhance tracking of the Localisation Agenda in Jordan in a gender-responsive manner in line with Grand Bargain commitments. The MEAL framework and its baseline were led by UN Women as Co-chair of the Localisation Task Team along with the Jordan NGO Forum and the Jordan INGO Forum.
