STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

By 2024, people live in a rule of law, an environment of peace and accountability through strong public institutions, media and civil society exercising their roles and responsibilities for effective and inclusive governance (related to SP_D_1.2 : More national and local plans and budgets are gender-responsive)

Several ministerial departments are able to take gender into account in their budgeting process as a result of the implementation of the PBSG strategy. Three PDSECs at the level of two district councils and one regional council are available thanks to the support of UN Women. To ensure its legitimacy, this process requires the involvement of all layers of the community, taking into account their specific needs. This involvement will facilitate the appropriation of the document and its implementation because everyone will feel responsible for the implementation of the activities selected in the plan.
