Number of countries with multi stakeholder initiatives in place to prevent and respond to sexual violence including sexual harassment in public and/or private spaces (CO, HQ)	(Baseline)	-	N/A
	2022 (Target)	-	1

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

Increased access to essential services

ON Track: To facilitate access to essential services for women and girls who are victims of GBV, Niger has made significant efforts. 600 GBV management mechanisms, two regional centers for the holistic management of GBV victims with SOPs validated with all stakeholders. In 2022, sixty-five (65) women and girls who survived GBV were identified and supported within these two social cohesion spaces. These women receive psychosocial support and funds to implement income-generating activities. With these income-generating activities, they manage to take care of themselves and their children because they are now isolated and do not necessarily have the support of their family.
