STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Outcome 1.3 of the SN aligned to Outcome 6 of the UNSDCF: By 2026, Salvadoran institutions strengthen democratic governance by guaranteeing the rule of law and inclusive political and civic participation, as well as preventing and combating corruption, promoting transparency and accountability.

Outcome 1.3 of the SN aligned to Outcome 6 of the UNSDCF: By 2026, Salvadoran institutions strengthen democratic governance by guaranteeing the rule of law and inclusive political and civic participation, as well as preventing and combating corruption, promoting transparency and accountability. The outcome was partially achieved in the course of 2022, as Salvadoran institutions made progress in strengthening democratic governance. UN Women gave its contribution to the promotion of democracy by fostering gender mainstreaming in municipal institutions. UN Women and ISDEMU carried out a series of joint actions to consolidate ISDEMU's planning processes with a gender perspective at the local level. For such a purpose, a tool had been developed in the previous years and applied to three municipalities in El Salvador. During the year 2022, it was scaled up to 50 Salvadoran municipalities with the technical assistance of ISDEMU and UN Women and the capacity-building of universities to facilitate its use at the municipal level. Even though more efforts are required to include a gender perspective at the local level, the participation of more than 50 mayors and more than 1,000 people from municipal councils and technical staff represents an important step towards the fulfillment of this goal, as the engagement of local institutions contributes to generating a new vision of gender at the local level and sets the basis for a continuous collaboration in the coming years. At the same time, UN Women contributed to raising awareness about the importance of women in politics, by ensuring, in partnership with UNDP and the Supreme Electoral Tribunal, the publication of the Report on women's political participation in El Paí's; Such a document helps to identify gender gaps in politics in 8 dimensions (municipal, political parties, central government, Legislative Assembly, Supreme Electoral Tribunal, Supreme Court of Justice) and can constitute a relevant input in the year 2023 to promote more women's political participation. Based on progress to

date, the original strategy and theory of change for this outcome remains largely applicable. However, given the current polarized political context, Salvadoran institutions are less open to the proposed work that includes strengthening the rule of law and inclusive political and civic participation, as well as preventing and combating corruption, promoting transparency and accountability. The actions and strategies that will be used this year for its fulfillment will focus more on actions carried out through inter-agency coordination or with other international actors, to ensure its implementation and impact on society.
