STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

A comprehensive and dynamic set of global norms, policies and standards on gender equality and the empowerment of all women and girls in Peace, Security, Humanitarian and Disaster Risk Reduction (DRR) settings is strengthened and translated into gender-responsive laws, policies, and institutions in West and Central Africa.

In West Africa, UN Women has invested in the creation of an enabling environment for women's participation in peace processes. UN Women has worked with other partners to support all countries to develop National Action Plan for the implementation of UNSCR 1325 . In this vein, 22 countries out of the 24 covered by WCARO in the West and Central Africa region. UN Women is supporting NAP implementation by strengthening coordination and supporting the establishment of NAPs secretariats by ministries of gender and allocation of national budget for the implementation of the NAPs. WCARO has started to set up strong group of women with expertise on gender and DRR. They are influencing some regional DRR processes and have started to be invited to participate in the AU group of experts on DRR. UNWOMEN strategy for more impact was to focus on capacity building of actors, development of tools and guidance on gender and DRR and advocacy.
