Marginalized women and young women have access to, participate in and achieve quality learning, entrepreneurship and employment outcomes through second chance education.

SCE Chile has developed a sustainable model for the empowerment of women while advocating and providing technical assistance to address barriers that hinder access to education and decent employment opportunities, as well as becoming a reference for online learning for women from different contexts, such as migrant, refugees, indigenous, low income and marginalised. By December 2024, 8,634 women have enrolled in SCE Chile, against the pilot target of 4,000 . Considering 7,237 women as participants and 5,694 women having already graduated from the program, with 1,238 women graduated . In term of impact, 24% of women report to have started a new business thanks to the program and 36% have improved their business; 16% of them report to have found formal employment due to the program, and 38% declare to have strengthen their employment skills; 44% of the women report to have continued their education. Amongst these, 24% have continued with more advanced training, 5% with technical education and 15% with secondary education.

Comprehensive Programme Management including Knowledge development, sharing & communication and programme Monitoring & Evaluation

SCE has made strong progress on management, M&E and communication’s outcome during this period, achieving targets have been met across all indicators, and intended results in all outcome areas. Global result evaluation revealed that the programme was successful in its intervention. Quarterly monitoring also presented that targets were achieved. In terms of communication, 7 impact stories were developed, presenting SCE interventions and successful stories from women which were communicated in UNW LAC website, SCE global and local site, reaching partners and key stakeholders. In terms of knowledge products, 2 briefs, 1 study, 1 toolkit, 2 methodology documents were published in 2023.
