STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF: **2023**

By 2026, gaps in key socio-economic indicators are reduced, reflecting greater gender equality and progress in the empowerment of youth, women and girls, and other vulnerable groups, including in humanitarian contexts. (Outcome 2.2 /UNSDCF)

Until 2023, UN Women, thanks to its donors, has contributed to reducing the gap in key socio-economic indicators through advocacy with the Cameroonian government for the adoption of a law against gender-based violence, through actions to support women in capacity building to facilitate their access to income-generating activities; indeed, by 2023, UN Women has trained 27 women's cooperatives in business plan development and techniques for accessing finance. In addition, through the Women Count project, UN Women is working closely with government partners to improve the production, analysis, dissemination and use of gender statistics. The availability of such data will make it possible to advocate for a reduction in the various gaps.
