STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

Women and girls in Venezuela's migrant population, returned Colombian population and host communities receive humanitarian care in an integrated, differential, coordinated and quality manner; enjoy enabling environments; access quality and differentiated services; and access the labour market and entrepreneurship opportunities expeditiously and massively; in the framework of the combined action of state institutions, relevant non-governmental actors and other actors, with UN Women's contribution to the efforts of the National Government and in coordination with the UN Country Team (UNSDCF 2.1, 2.2, 2.3, 2.4)

In 2023, UN Women Colombia made significant progress on outcome 2.1 (on track). Thanks to UN Women contribution, an innovative model of a comprehensive response to the migrant population and host communities was consolidated in 8 cities (Barranquilla, Soledad, Riohacha, Maicao, Santa Marta and Cartagena in the Caribbean Coast, and Pasto and Ipiales in Nariño), benefiting more than 10.000 (85% girls and women). Out of these, 2.205 women positioned their leadership and advocated for the incorporation of their priorities and needs in the local gender equality agenda, and 2.091 women accessed entrepreneurship and employability strategies. The model also allowed for the strengthening of 8 civil society organizations, the management of 160 GBV cases, and the enhancement of 32 enterprises of migrant women and women from host communities. In addition, UN Women continued providing inputs and advocating for the inclusion of the gender approach and the importance of the prevention of sexual exploitation and abuse with GIFMM partners. As co-leaders of the socioeconomic integration sector, UN Women produced a Guideline for the Inclusion of the Gender and Diversity Approach in Socioeconomic Integration Activities for Refugees, Migrants and Host Communities . This document includes a virtual tool that allow members of the GIFMM to verify the extent

in which they incorporate the gender approach in the design of their proposals, their implementation process and their monitoring and evaluation phases. UN Women also co-lead the elimination of GBV sector and the PSEAs Task Force that include 37 NGOs and 17 United Nations agencies.
