STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

The Honduran State implements policies, strategies and programs that allows strengthen the sustainability and resilience of their development.

The Honduran government in the last years, being a new government, promoted initiatives to strengthen its institutions, especially in the gender perspective. In this scenario, the Ministry of Women Affairs was created in this new government period, a Ministry created to rectorate public policy in favour of women, girls and gender in order to advance to gender equality and justice in the country. Other initiatives included the creation of Gender Units in every state Ministry and insitution, to lead the integration of gender perspective in all government action; however, 2023 demonstrated there are still challenges in the fonctioning of this structures, both financially and technically, providing UN Women an opportunity to begin dialogue with the Ministry of Women Affairs to articulate actions

that will take advantage of this initiative and strengthen the gender offices.
