STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

By 2024, people are resilient to conflict, live reconciled and in harmony in a peaceful and secure environment that respects human rights and positive cultural traditions. (Related to SP_D_4.1 : More commitments on women, peace and security are implemented by Member States and the UN system, and more gender equality advocates influence peace and security processes)

1257 Women members of peace huts, peace committees, women mediators influence the prevention and resolution of local conflicts in the regions of Mopti, Bandiagara, Gao, Timbuktu, Ménaka and Segou. UN Women has strengthened the technical capacities of women leaders, advocated with regional and local authorities to open peace mechanisms to women, supported dialogue on peace and social cohesion initiatives, and brought women into contact with authorities and influential men. The local women's coordination organisations and the NGO implementing partners mobilized the actors, ensuring their mobilization and capacity building. Women contribute to the resilience of their families and communities by improving their food security and income through the establishment of cereal banks, market gardens, seed stocks, soap production and the processing of agri-food products in Mopti, Bandiagara (Koro), Gao, Timbuktu, and Ménaka. Their contribution helps to improve social cohesion between community members by reducing the risk of conflict linked to food insecurity, and has strengthened the bonds of social cohesion, mutual aid and solidarity between women from different communities through collective activities. The resources generated are used for family expenses, especially for children (purchase of clothes, health care, school supplies, meals for children at school). UN Women has financed economic recovery activities, strengthened the technical capacities of the targets, equipped the groups and peace huts with production and processing equipments. The regional directorates for the promotion of women, agriculture and hydraulics provided technical assistance and monitoring of the activities. Implementing NGOs trained the women's groups, informed the authorities and provided advisory support to the beneficiaries. Women and girls benefit more from the coordinated humanitarian response through improved targeting, systematic disaggregation of data and consideration of their specific needs in protection, food security, health and NFIs assistance. UN Women provided technical support for the development and implementation of the roadmap on gender mainstreaming in humanitarian action and the gender strategy of the Humanitarian Country Team, funded capacity building of humanitarian actors in Timbuktu,

Gao, Mopti, and the District of Bamako, and advocated for funding of the roadmap. The Ministry of Health and Social Development and the Ministry for Humanitarian Action provided technical support, particularly in terms of targeting and monitoring. OCHA and NRC contributed to the funding of the actions. UN Women strengthened its leadership within the Humanitarian Country Team (HCT) through the implementation of the roadmap for gender mainstreaming in humanitarian action. As part of the implementation of this roadmap, UN Women ensured the coordination of the Cluster Gender Focal Point Network (RPFGC) with OCHA and the implementation of the 2022 work plan. A capacity building plan for humanitarian actors on Gender in Humanitarian Action, in alignment with the Roadmap, was implemented with the technical and financial support of UN Women and OCHA Mali. They have helped to strengthen the specific knowledge on gender of humanitarian actors. The application of the knowledge received by the humanitarian actors allowed for inclusive targeting, systematic disaggregation of data by sex and age and consideration of the specific needs of women and girls.
