	2026 (Target)	2	-

## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

### **The UN system coherently and systematically contributes to the progress of gender equality and the empowerment of women and girls (SN)**

Mozambique has conducted a gender score card training, with the participation of 16 UN staff from same number of agencies. Contrary to the previous UNCT-SWAP Gender Equality Scorecards in Mozambique, which was conducted with in-house capacities only, the 2023 exercise counted on the technical support of an external consultant to guide and facilitate the exercise. Evidence shows that the UNCT-SWAP Scorecard has helped ensure the gender-responsive implementation of the 2030 Agenda and COVID-19 response and recovery plans. It has also been an opportunity to bring the UNCT together around the issues of organizational culture and leadership and how to commit resources towards substantial investment in enhanced gender competencies and coordination capacities of inter-agency working groups (Gender Theme Groups, Operational Management Teams, UN Inter-Agency Communication Groups, CF Strategic Pillar Groups, Monitoring, Evaluation and Reporting Group, and others). UN Women has requested and received approval for a new post at P3 level Humanitarian Specialist partly to support the integration gender equality within the HCT plan.
