STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

Outcome 1: By 2026, people in Kenya at risk of being left behind- particularly all women and girls, all children and youth, all people in the ASAL counties and in informal urban settlements, - inhabit an inclusive, enabling, socially cohesive, and peaceful society where human rights are upheld, and benefit from accountable institutions and participate in transformative governance systems that are gender responsive and uphold the rule of law

Significant results were achieved to ensure that Kenya has an inclusive, enabling and socially cohesive and peaceful society where women leaders play a key role. Women leaders elected during the General Election in 2022, emerged in 2023 as trailblazers in service delivery to the people of Kenya. According to a County Track Survey conducted by Infotrak, the women governors were assessed as top performers- both for development and for service delivery. Out of the seven elected women governors, four (57%) made it to the top ten. In Kirinyaga county, the governor transformed the county's health sector by constructing a modern hospital complex in Kerugoya and in Nakuru county, access to citizens has been made to clean drinking water and agricultural advancements (previously key challenges). This is extraordinary as women leaders face barriers like deeply entrenched patriarchal and discriminatory institutions, laws and social norms. The collective efforts by UN Women: support to governors during elections, long term investments in capacity building of women leaders, advocate for policy and legislative reforms, engage media and communities and build partnerships with civil society have yielded results that a few years ago were non-existent. As a member in the Multi-Sectorial Working Group, UN Women continued to support and advocate for implementation of the two-thirds gender principle as per the 2010 Constitution. In 2023, substantial results were also achieved with regard to the development and content of the County Integrated Development Plans (CIDP) in all 47 counties. It is important to note, that CIDPs I and II were not gender mainstreamed and therefore the needs of women and girls in the 47 counties were not prominent. The CIDP III, unlike its predecessors, is however robust on gender issues and gender related programmes, especially in social sectors such as health, agriculture, social protection, water, trade sectors and education, are now frequent. To strengthen the monitoring and evaluation systems of CIDP-III, UN Women provided technical support to the CIDP-III indicator handbook for 19 counties [1] . Linked to this, is budgeting for GEWE. The amount of national budget allocated to

GEWE remained low in 2023, with only a small increase- from 0.12% in 2022/2023 to 0.14% for 2023/2024. UN Women supported national and county governments in the development of budget policies and legal frameworks and will continue to support counties’ development and review of Gender Responsive Budget institutional frameworks. The National SDGs Indicator Framework and Country Profile on SDG data were updated as preparation for Kenya’s 2024 Voluntary National Review with UN Women technical and financial support. The two publications generated increased the number of gender-relevant indicators- from 42 to 44 out of the 80 SDGs. Gender statistics produced through support of UN Women has been used by UN agencies joint programmes. It is anticipated that this data will be used by government, public and private sectors in their policy making, programming and decision-making. Achievement of GEWE cannot be achieved without a peaceful and secure environment for women and girls. In 2023, the percentage of women leaders in the peace committees increased from 33% to 34% which led to gender-responsive policy formulation/implementation, strengthened advocacy for GEWE and collaboration with human rights defenders to enhance service delivery to SGBV survivors. UN Women contributed to this by supporting the localization of the Kenya’s National Action Plan on UNSCR 1325. Eight [2] counties successfully localized the KNAP, making it 18 in total. While strides have been made to advance the WPS agenda, the global Women Peace and Security index ranked Kenya at 149/177 (prev 90). In view of this, UN Women will further strengthen coordination of key peace, security and election management actors to prevent conflict and violence. Considering the above results, it is clear that the SN ToC is relevant. UN Women will continue to expand the space for GEWE through inclusive leadership, responsive policy and institutional reforms.
