SHOWING DATA OF : 2023

Gender statistics sex-disaggregated data and knowledge in West and Central Africa are produced, analyzed and used to inform policy-making, advocacy and accountability for delivering gender equality and women's empowerment results in Disaster Risk Reduction (DRR) settings.

Under the technical guidance of the regional gender and statistic unit and of the Women Count regional project, many initiatives are in progress in the region to increase the number of SGG indicators, as the VAW Survey in Senegal, the TUS in Nigeria and Liberia the RGA on cost of living in Senegal. UN Women Senegal project, Women Count, has been granted a funds from the Government of Italy to support activities in Senegal to improve national-level SDG monitoring through Citizen Generated data. To support countries in the region on Statistics, the R O Gender Statistic unit has organized a regional webinar on the use of CDG for measuring SDGs. This was done in collaboration with ESARO to share with ANSD and other government agencies interested in statistics/SDGs and CSOs (over 40 persons and 16 CSOs) what other African countries have already undertaken in this area. Publication of UNW Count programme is avilble and

englobes 11 countries of Central Africa.
