STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

By 2027, the operational, normative and collaborative potential of the UNCT Cooperation Frameworks to contribute to greater gender equality is fully optimised by UN Women’s interventions

This outcome is on track. There has been some progress towards the realisation of the operational, normative, and collaborative potential of the Pacific United Nations Sustainable Development Cooperation Framework (UNSDCF) to contribute to greater gender equality and women’s empowerment in Samoa. The United Nations in the Pacific has committed to the rollout of a comprehensive assessment of the United Nations System-wide Action Plan (UNCT-SWAP) Gender Equality Scorecard for a second time in less than 5 years. This commitment demonstrates willingness to being able to more concretely understand areas that need further joint action to progress gender mainstreaming and advance gender equality and women’s empowerment. The assessment will be undertaken across all three sub-regional United Nations Resident Coordinator Offices (RCOs), including the Samoa RCO, in a separate but coordinated manner as the RCOs come under one Pacific regional UN Sustainable Development Cooperation Framework (2023-2027). The Samoa RCO covers Samoa, Cook Islands and Niue. In November 2023, the Government of Samoa signed the Samoa Country Implementation Plan 2023-2024 (CIP). Also in November 2023, the Government of Cook Islands signed the Cook Islands Country Implementation Plan 2023-2024. These endorsements signify country-level agreements with the Pacific UNSDCF. The Niue Country Implementation Plan 2023-2024 is earmarked for signing in the first quarter of 2024. The CIPs of Samoa, Cook Islands and Niue builds upon the Pacific United Nations Sustainable Development Cooperation Framework 2023-2027 (UNSDCF) developed by the United Nations (UN) and 14 Pacific Island Countries and Territories (PICTs). These CIPs is firmly anchored to country-level priorities and structures and defines the UN actions and deliverables in Samoa, Cook Islands and Niue, including those of UN Women, to help achieve the outcomes of the Pacific UNSDCF. The CIPs will guide the joint efforts, and the collective

results expected will help these countries ensure all people are equal and free to exercise their fundamental rights, enjoy gender equality and peace, remain resilient to existential threats, and live in harmony. Throughout 2023, UN Women played a pivotal role within the Joint Programme Presence in Samoa to advance and ensure the inclusion of gender equality and women's empowerment throughout the Samoa CIP, and additionally the Cook Islands CIP and the Niue CIP. Capacity building of agencies through training and access to tools and guidance on gender responsive programming was undertaken which in turn has advanced/ is advancing joint action on gender equality for the three countries. UN Women's overarching commitment focused on supporting Samoa, Cook Islands and Niue national development priorities on gender, Sustainable Development Goal 5, and alignments with international standards such as CEDAW and the Beijing Platform for Action.
