SHOWING DATA OF : **2023**

Changes attributed to UNWomen in skills or abilities and capacities of individuals or institutions and/or the availability of new products and services contributing to Production, analysis and use of gender statistics and sex.

In the reporting year, UN Women collaborated with Senegal's National Statistical System (SSN) to integrate gender statistics into the fourth National Strategy for the Development of Statistics (SNDS IV, 2024-2028). This collaboration was part of the process led by the Conseil National de la Statistique (CNS) and ensured gender considerations in two strategic objectives. Additionally, in 2013, UN Women supported Senegal's National Agency for Statistics and Demography (ANSD) in conducting the 4th population census. This initiative provided crucial demographic data for evidence-based decision-making, informing policy, programming, and resource allocation aligned with national development plans, VNRs, SDGs, CEDAW, and Beijing commitments.
