STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF: **2023**

Regional institutions, national governments and civil society in CARICOM generate, analyse, publicise and utilise gender statistics to design and adopt laws, systems and policies to eliminate discrimination, address structural inequalities and promote the adoption of attitudes, norms and practices that advance gender equality and women’s empowerment in the Caribbean.

Notable impact has been made by regional institutions, national governments and civil society to in using data towards the enhancement of policy, legislation and systems to address issues of gender equality. UN Women MCO provided support to the Caribbean Court of Justice (CCJ) as amicus curiae in an Appeal which led to a ruling promoting a human rights sensitive approach in the interpretation of provisions in the Domestic Violence Act of Barbados and has sustained work with civil society and national gender machineries (NGMs), a key success of which has been the Ministry of Culture Gender Entertainment and Sport of Jamaica championing amendments to the Domestic Violence Act which was approved in 2023. The MCO continues to provide sustained support to countries in the implementation of their CEDAW obligations, and other human rights obligations towards advancing gender equality. The MCO has supported the following: 1. Costing of the National Police for Gender Equality for Jamaica 2. Drafting and providing technical support for the development of a Gender Policy for the Turks and Caicos Islands 3. Begun engagement to support the Gender Policy for British Virgin Islands 4. Partnered to support a Gender Review of Belize , including the development of a Gender Analysis and the review three sector plans/strategies to integrate gender equality and preventing and responding to gender-based violence 5. Promoted the development of a Women, Peace and Security National Action Plan in Trinidad and Tobago . 6. Technical support was also provided in the drafting of the National Gender Equality and Equity Policy for The Bahamas. Where there have been areas where no significant impact was made, the MCO has continued to lay the foundation for interventions, programmes and technical support that will advance gender

equality in the region in coming years.
