STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

Gender statistics, sex-disaggregated data and knowledge are produced, analyzed and used to inform policymaking, advocacy and accountability for delivering gender equality and women's empowerment results in West and Central Africa Region (SP Outcome 6)

Awareness about the importance of gender statistics is undoubtedly steadily increasing in countries and among partners, given the growing demand for information, guidance and technical support. However, it should be noted that this request for support sometimes arrives very late (at the time of analysis or reporting) and that it is difficult for the regional office to ensure a good technical review.
