## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

### **The UN system in ESA region is coordinated, and coherently and systematically contributes to progress on gender equality and empowerment of women and girls**

The RO's support to the UN system (UNCTs, RCOs and GTGs) was aimed at orienting them on the application of UN tools and guidance (SWAP-Scorecard, the Gender Equality Marker and the Gender Theme Group Standards and Procedures ) to improve integration of gender considerations in the implementation of UNSDCF's and other joint UN plans. In this first year of reporting, the UN system can be characterized as having knowledge and user level competencies to apply these tools and guidance to make their work better coordinated, coherent and systematic. The skilling of UN Women M/CO staff on corporate gender equality tools is also expected to provide in country expertise that the UN system can draw on. A survey of all the UNCTs engaged in 2023 will provide more details on the extent to which the skills imparted are being utilized to improve coordination and bring coherence to their gender equality work.
