STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

Strengthened and effective inclusive, people centred, gender-responsive, human rights-based policies and national systems contribute to gender equality, the promotion of protection, social protection, social cohesion and peaceful societies, with focus on the most vulnerable populations, including women, youth and minorities

Iraqi Government and key stakeholders (including non-ministerial entities) developed and are now able to use 8 sectoral action plans at federal level and 1 action plan at regional level in Kurdistan to strengthen the implementation of the UNSCR1325 NAP II at the national and local (governorate) level. The plans clearly outline the roles and responsibilities of governmental entities and civil society actors with regards to the implementation of INAP II pillars. As such, they represent an effective gender-responsive and human-rights based tool that will be used by all relevant stakeholders for comprehensive implementation, monitoring and reporting of progress and results related to the promotion and protection of women and girls' rights as well as for the promotion of protection, social protection, social cohesion and peaceful societies, with a focus on the most vulnerable populations, including women, youth and minorities. UN Women provided technical and coordination support during the planning process. Furthermore, women leaders are able to contribute to building peaceful societies, raise awareness on the importance of women inclusion in peacebuilding and promote the implementation of the WPS Agenda through their engagement in the implementation of action plans.
