

# Country-Level Data for Liberia country Outcome XM-DAC-41146-LBR\_D\_1.2

Data as of:  
16 May 2024

OUTCOME LBR\_D\_1.2 [XM-DAC-41146-LBR\\_D\\_1.2](#)

By 2024, people in Liberia especially the vulnerable and disadvantaged, benefit from strengthened institutions that are more effective, accountable, transparent, inclusive and gender-responsive in the delivery of essential services at the national and sub-national levels.

## OUTCOME DETAILS

### SDG alignment

### Impact areas

Governance and participation in public life

Women, peace and security, humanitarian action and disaster risk reduction

### Organizational outputs

Norms, laws, policies and institutions

Financing for gender equality

Access to services, goods and resources

### Outcome Description

The essential social services environment in Liberia is characterized by myriad of challenges, most importantly, inadequate capacities and means among both duty bearers and rights holders which lead to limited access to services. This is the result of, in large measure, the centralization of service delivery in the capital region. Where decentralized service delivery exists, the system suffers from weak coordination and implementation due to low capacity to supervise and monitor the policy and strategy implementation. The situation is further exacerbated by limitations of data collection and utilization. A severely constrained fiscal space has reduced investments in the above critical areas of concern.

### UN Partners

UNDP

Access to services, goods and resources

Women's voice, leadership and agency

### **Policy Marker**

GENDER EQUALITY

### **Humanitarian Scope**

No

### **UN System Function**

Advocacy, communications and social mobilization

Capacity development and technical assistance

Direct support and service delivery

Intergovernmental Normative Support

Support functions

## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

**By 2024, people in Liberia especially the vulnerable and disadvantaged, benefit from strengthened institutions that are more effective, accountable, transparent, inclusive and gender-responsive in the delivery of essential services at the national and sub-national levels.**

UN Women Liberia has made some progress towards this Outcome. The Draft New Election Law which included a mandatory 30% gender quota for political parties and political party leadership (Article 4.5) has passed by Senate and the House of representative for the first time in Liberia. Currently the law is tabled to be signed by the president. The Law provides fines in the event of noncompliance by political parties. Violence Against Women in Election and Politics (VAWIE/P) Protocol developed by National Elections Commission (NEC), with the support of UN Women (since 2021) is also endorsed by the NEC and political parties; currently 29 out of 32 registered political parties have signed the protocol. UN Women is recognized by NEC for the support provided on VAWIE/P\_ protocol during the signing. (LINK) UN Women also contributed toward gender responsiveness Ministries and Commissions i.e., Ministry of Health (MOH), Ministry of Education (MOE), National Investment Commission (NIC), and Liberia Anti- Corruption Commission (LACC) by supporting the development of the Gender and Social Inclusion Policy. MOE, NIC and LACC have endorsed the policy during a validation workshop held in December 2022, MOH is expected to endorse the policy in 2023. These policies will pave the way for establishing gender and social inclusion units that will support other ministries, agencies, and commissions' efforts to mainstream gender and promote gender equality. UN Women has contributed significantly to the development of the draft quota law by providing technical support to the women Legislative Caucus of Liberia including in preparation of Constitutional arguments and drafting sections on incentives and fines for noncompliance. UN Women also worked with Ministry of Gender, Children and Social Protection Affairs (MGCSP), key male allies in the legislature and ensured the participation of women's rights organizations by

organizing a power mapping of the National Legislature. UN Women also worked with UNDP Resident Representative and Resident Coordinator, published an op-ed on the case for a mandatory gender quota. (Link) UN Women worked with NEC, legislators, political parties and women's rights organisations to advocate for the signing and implementation of the VAWIE Protocol. UN Women fully supported development of the Gender and Social Inclusion Policy by providing technical support that led the consultation and development process ensuring full ownership by partners. The 30% gender quota law, if passed as a law, VAWIE/P Protocol and planned capacity building programme for aspirants and candidates in politics is expected to contribute to increased representation of women as candidates in the 2023 elections, and therefore as legislators. Plans for similar intervention by UN Women Liberia's experience should integrate strong and coordinated advocacy and technical assistance work with UN Women HQ Interagency Task Team on TSMs.
