Outcome Description

There are governance deficits in Liberia which severely hamper delivery of public services. Persistent corruption and lack of accountability triggers low public confidence in the legitimacy of national governance. The quality and coverage of public services, especially on civil registry and vital statistics has not improved and in some areas economic conditions are deteriorating. The civil service continues to have huge challenges that are associated with weak payroll compliance, relatively low salaries, poor alignment between skills and functions. A Liberia government document noted key challenges of the civil service as belonging to three broad categories: i) Not regulated, ii) Low performance and wages; Mismatch between positions grade and remuneration and also lack of job descriptions

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

The capacity of the GoL, gender equality advocates and other national stakeholders strengthened to assess progress and accelerate the implementation of continental and global normative and policy frameworks

As a result of srengthened capacity to GoL representatives to report on and implement continental and global normative and policy frameworks, the GoL through the Ministry of Gender, Children and Social Protection led the development of the 2020-2021 STATE PARTY REPORT On the African Union Continental Result Framework (CRF) on Women, Peace and Security (WPS). This is the first time the Ministry has led the task of developing this report as the previous report was technically supported by UN Women and a technical consultant.This report, as requested by the Office of the AU Special Envoy on WPS, is Liberia’s second and combined report covering the period January 1, 2020 to December 31, 2021 and it catalogues progress that have been made by the government ministries and agencies and civil society organizations that implemented the NAP WPS during the period under review.
