STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

people live in a rule of law, an environment of peace and accountability through strong public institutions, media and civil society exercising their roles and responsibilities for effective and inclusive governance (related to SP_D_1.1 : More women of all ages fully participate, lead and engage in political institutions and processes)

The combined implementation of the different activities of the NGP, the national PBSG strategy, and the application of Law 052 have made it possible to create an environment where the rights of women and men are respected. The institutionalization of PBSG tools and the inclusion of gender at all levels (planning, program and policy development, budgeting process) allows for a better distribution of resources and a greater involvement of all segments of society in the country's development process.
