OUTCOME PAL_D_2.1 [XM-DAC-41146-PAL_D_2.1](#)

National policies promote decent work and economic opportunities for women in Palestine

OUTCOME DETAILS

SDG alignment

Impact areas

Women's economic empowerment

Organizational outputs

Norms, laws, policies and institutions

Policy Marker

GENDER EQUALITY

Humanitarian Scope

No

UN System Function

Advocacy, communications and social mobilization

Outcome Description

Work under this outcome will focus on three pillars: reforming the Labour Law; strengthening the process of Gender Responsive Budgeting in Line Ministries; promoting policies related to care economy and shared responsibilities between women and men; and working with the private sector on promoting Women Economic Principles. UN Women will partner with ILO in relation to the Labour Law; the Ministry of Women's Affairs and the Ministry of National Economy on GRB; and ILO and Civil Society on Care Economy; and with the private sector on the WEPS.

UN Partners

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

National policies promote decent work and economic opportunities for women in Palestine

Several policy tools, policies and procedures were developed and implemented by national actors (MoNE and MoF). A policy is developed and implemented on legislative procedures related to registration and formalization of Micro, Small and Very Small (MSVs) led by women, youth and persons with disabilities. This resulted in reducing the registration fees for MSVs, led by the Ministry of National Economy (MoNE). A policy tool is developed to propose revising the procurement procedures in the National Procurement Law by the MoNE. The tool proposes providing priority conditions for women-led MSVs to participate in the governmental procurement processes and tenders in Palestine. The MoNE provided its proposal to the National Central Bidding Committee on the adoption and implementation of the tool developed on procurement practices. Since the governmental tenders contribute by 12 per cent to the GDP in Palestine, the proposed tool will enhance women's economic participation. A Women Economic Empowerment (WEE) Fund is established at the national level, providing business development services for women MSVs in the West Bank and Gaza, by the MoNE, with the leadership of an Advisory multi-stakeholder board. In total, a first group of 90 women business owners had access to in-kind grants. The women business owners are from underserved and remote locations in Palestine, including at risk communities. An E-Souq platform is established by the MoNE, comprising of women-led businesses in the handicrafts and ICT sectors. It serves as an online database for women-led MSVs and will enhance women's access to services provided by MoNE and other national actors. The establishment of this platform strengthened the coordination efforts between MoNE and national partners in the WEE sector, including ministries, civil society, chambers of commerce, private sector etc. Amendments to the draft Value Added Tax (VAT) Law, on article 61 on tax exemption ceilings in favour of MSVs, are proposed and approved by the Council of Ministers in August 2022, led by the Ministry of Finance (MoF). The new version of the draft Law, based on proposed amendments is being reviewed for adoption by the Palestinian Government through beginning of 2023. The proposed amendments contribute to benefitting the MSVs who have

less access to services, mostly affected by the Pandemic and mostly disadvantaged. Since most of these businesses are led by women, youth and persons with disabilities, the proposed amendments take into consideration these businesses' vulnerabilities. Partners gained knowledge and skills on policy making from a gender equality perspective. This was achieved through UN Women capacity building and coaching programmes co-designed with the partners, based on a needs assessment conducted for the purpose of these interventions. Based on the needs assessment findings, the training and coaching programme was designed and implemented.
