## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

### More women own, launch and/or better manage small and medium and large enterprises

This outcome was achieved as planned. 208 Palestinian women business owners (160 young women, 63 in the informal sector, 17 women with disabilities, 62 women from rural areas) benefited from the Ministry of National Economy's (MoNE) services (including awareness, registration, in-kind grants and procurement procedures) to formalize their businesses. These results (208) were more than targeted (150). These results are evidenced by the additional excel spreadsheet attached here. UN Women supported the establishment and piloting of the Women's Economic Empowerment (WEE) Fund at the MoNE under the Joint Programme "Mitigating the impacts of COVID-19 on women's economic participation in the State of Palestine." A multi-stakeholder advisory board was formed and launched for the WEE Fund by the MoNE to support the sustainability of this initiative (which consisted of about 17 national member organizations, members states, local and International NGOs, private sector and UN agencies). UN Women is upscaling and expanding the WEE Fund (which is considered a best practice as a national mechanism to enhance women's access to sustainable financial resources and services) through 2023.
