STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

By 2025, people contribute to, and benefit from more accountable and transparent governance systems that deliver quality public services, and ensure rule of law

Throughout the year progress was made in regard to achieving this outcome as a result of multiple interventions in the area of gender responsive programming and budgeting, implementation of national and international normative commitments, and the country's path to EU accession, while utilizing coordination mandate and promoting accountability for the implementation of gender equality commitments. Government institutions made progress in implementing gender-responsive policy making, budgeting and integration of EU gender equality and women's empowerment commitments, notable from continuous annual budget allocations to gender equality in BiH (1.45% at the level of BiH institutions; 5.79% in FBiH; and 6.39% in RS); increased development and use of gender statistics, notable from development of key statistical resources (Women and Men in Bosnia and Herzegovina 2021 and Moving towards the Gender Equality Index Bosnia and Herzegovina 2022); and contribution to more meaningful and systematic approach to implementation of international and national normative commitments on gender equality, notable from development of a framework monitoring tool to implement CEDAW, UNSCR 1325, BiH Gender Action Plan. UN Women contributed to these changes through intensive advocacy and advisory work in the area of gender responsive governance in BiH. This included regional programs and exchanges, strategic guidance and gender analyses, local and regional trainings, and advocating with key ministries and institutions to effectively contribute to these changes. UNDP and the key government institutions in BiH, including gender institutional mechanisms, ministries of finance and supreme audit institutions, partnered with UN Women to achieve these results.
