STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

The capacity of governments and stakeholders is strengthened to assess progress in implementation of the Beijing Platform for Action, and other global normative and policy frameworks

UN Women has contributed significantly to strengthening institutional capacities to mainstream the gender approach, consistent with the Beijing Platform for Action, through direct support to government, civil society and collaborative work with the United Nations System. It has signed 12 memorandums of understanding with the government to mainstream the gender approach in the State. As a result of these agreements, 1,200 public officials have received training on gender, public policies and gender violence. UN Women is supporting the design of emblematic policies and reforms such as the National Care System, Public Security and Migration. UN Women has collaborated with civil society to publicly position the gender agenda in the framework of the discussion of the new constitution, through the generation of knowledge and direct work with women in the territories. With the United Nations System, it developed the 2023-2026 cooperation framework that includes a gender pillar, a fact highly valued by the government, based on the feminist approach of President Boric.
