## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

**Women and girls in Venezuela's migrant population, returned Colombian population and host communities receive humanitarian care in an integrated, differential, coordinated and quality manner; enjoy enabling environments; access quality and differentiated services; and access the labour market and entrepreneurship opportunities expeditiously and massively; in the framework of the combined action of state institutions, relevant non-governmental actors and other actors, with UN Women's contribution to the efforts of the National Government and in coordination with the UN Country Team (UNSDCF 2.1, 2.2, 2.3, 2.4)**

In 2022, UN Women Colombia made significant progress on outcome 2.1 (on track). Thanks to UN Women contribution, an innovative model of a comprehensive response to the migrant population and host communities was consolidated. UN Women supported the integration of migrant Venezuelan women, returned Colombian women, and host communities with a model for their socioeconomic integration, where it was urgent to act against GBV and xenophobia in coordination with local public authorities. This included advocacy actions to position key messages in favor of women's rights and the promotion of alternatives to improve their access to livelihoods through the commercialization of their entrepreneurship products and strengthening of their soft and hard skills. The model allowed the regularization of 4,015 migrants (64% girls and women), the promotion of leadership of 1,014 women, the strengthening of 11 local organizations, care of 87 cases of GBV, employability and entrepreneurship programs for 955 women, and support to 48 enterprises. The model is implemented within the Venezuelan Migration Response Plan (RMRP) coordinated by the regional platform designated by the Secretary General (Response for Venezuelan Migration – R4V), which includes several UN and other cooperation agencies. In addition, UN Women continued with the provision of inputs and advocacy for the inclusion of the gender approach and the importance of the prevention of sexual exploitation and abuse with GIFMM partners.
