## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

**By 2025, the strengthened State institutions will increase citizen security, access to justice, and the transformation of conflicts, seeking greater coordination at the national and local levels. (UNSDCF Pillar 4. Peace, security and justice. Outcome 4.1.)**

UN Women Guatemala made considerable progress in this result during 2022 and maintains its efforts to ensure that State institutions increase citizen security, access to justice, and the transformation of conflicts, ensuring the participation and leadership of women in processes of construction and maintenance of peace and defense of human rights. During 2022, the following three results stand out: The Public Ministry –MP– appropriated tools, capacities, and technical resources for: (i) due diligence in the investigation of femicide and crime scene management by training 90 prosecutors and crime scene specialists from the Prosecutor's Office against Crime of Femicide of the MP and (ii) the hiring of suitable personnel to investigate cases of Femicide and other forms of violence, through the competency profile and the design of psychometric evaluations with a gender perspective for 5 job profiles in the Prosecutor's Office against the Crime of Femicide. The Attorney General's Office and the Judicial Branch showed a strong political commitment to the Women's Peace and Security Agenda by developing coordinated actions to increase women's access to justice through the development of inter-institutional training, with the support of UN Women. The 2022–2027 Action Plan of the National Policy for the "Prevention of Violence and Crime, Citizen Security and Peaceful Coexistence"; 2014–2034 (PONAPRE), was updated by the Ministry of the Interior (MINGOB) thanks to the interagency technical assistance provided by Group of Peace, Security, and Justice Results of the Cooperation Framework led by UN Women and articulated with UNDP, UNFPA, PAHO/WHO, OHCHR, and UNICEF. The Presidential Secretariat for Women –SEPREM– of Guatemala strengthened its capacities to deliver the confidential report of the UNCT for the 85th meeting of the CEDAW Committee and the follow-up plan to the final observations of the Committee and implemented, as well as to coordinate the Inter-Institutional Roundtable on Women, Peace, and Security (MIMPAZ), thanks to the technical support of UN Women. It is noteworthy that the Theory of Change for this outcome was developed through participation in 2021 as part of the creation of the 2022–2025 strategic plan for the Guatemala Country Office, which was approved in 2022. The most significant lesson learned from the year is that

through collaborative, coordinated, and connected efforts, we are able to have a wider impact, strengthen our leadership position, and make greater strides toward achieving shared goals.
