## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

### **The prison and judicial sector has operational capacities facilitating better coordination of the COVID-19 response**

With an improved institutional and technical capacity of the carceral Administration , services to vulnerable detainees have been improved with regard to COVID-19 response by developing and implementing a contingency plan, coordination of technical and financial partners that allowed to harmonize their approaches and exchanges on practices. Public entities involved and CSOs providing services offered better services. The DAP has improved efficiency and effectiveness by organising actors around their areas of specialisation with a good geographical distribution and coverage. Some coordination tools like a data management system in place within DAP has strengthened his capacity and regulatory role.
