STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

The socio-cultural settings, as well as legislative, political, institutional and organizational frameworks are strengthened and structured to respond to domestic violence against women and girls

UN Women supported policy making by engaging government institutions and Civil Society Organizations including women led organizations in several consultations and dialogue processes within the framework of the Spotlight Programme. In addition several advocacy campaigns took place throughout the year to raise awareness on the impact of violence against women in society and to seek changes in social norms and cultural behavior by engaging men and boys while building their capacities through trainings addressing masculitinies. Social media campaigns mobilized multisector stakeholdes to drive local cultural behavior with a positive approach towards women.
