SP_D_0.4.d	(Baseline)	-	N/A
Number of women accessing information, goods, resources and/or services through UNW supported platforms and programs in humanitarian and development settings (CO, HQ)	2022 (Milestone)	-	1200
	2023 (Milestone)	-	-
	2024 (Target)	-	-

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

People in Iraq, particularly underserved, marginalised and vulnerable populations, have equitable and sustainable access to quality gender and age-responsive protection and social protection systems and services

More than 1,500 women and girls in targeted communities are able to pursue their rights through courts and legal pathways and have a better understanding of their basic rights as per Iraqi local laws. Specifically, women and girls in the targeted communities understand the legal pathways and means of litigation, while women and girls GBV survivors and/or those at risk of GBV are able to access protection services (including psychosocial and referral support provided in-person and through GBV hotline services). Stakeholders in local communities are also aware of GBV risks and the gendered impact of the COVID-19 crisis. Furthermore, women's centers in Kirkuk and Anbar are now able to provide a comprehensive set of services including legal aid, case management, counselling, awareness raising, health care and childcare services to the women in need (women and girls GBV survivors and/or at risk of GBV). Staff of the centers possess enhanced knowledge and skills on GBV case management and can deliver higher quality GBV prevention and response services.
