STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

People in Iraq participate in and benefit from effective mechanisms – at national, sub-national and community levels – that prevent, mitigate and manage conflict, and contribute to social cohesion and peaceful coexistence, with particular focus on women and youth leadership in decision-making, peace-building and reconciliation processes.

The Department for Women's Empowerment in the General Secretariat of the Iraqi Council of Ministers (DWE) developed and is now able to start implementing a second National Strategy for Iraqi Women (2023–2030). The strategy aims to foster women's political, economic and social empowerment and protection, thus contributing to increase social cohesion and women's role in decision-making and leadership. The strategy represents a fundamental step towards the effective mainstreaming and institutionalization of women's empowerment and leadership across the work of Iraqi legislative and executive institutions. UN Women provided technical and financial support to national Iraqi women's machineries enhancing the DWE ability to develop the Second National Strategy for Iraqi Women (2023–2030) in a consultative process.
