STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

More policies promoting access to decent work and social protection for vulnerable Jordanian women are implemented.

The outcome was not achieved; however the office made important progress. In the reporting year, some progress has been made promoting access to decent work. UN Women worked closely with the Ministry of Labor (MoL) and the Social Security Council (SSC) to develop gender responsive policy frameworks. The support provided by UN Women included support to conduct a gender reality assessment within both institutions to identify gender gaps. Based on the results of the assessment, an initial draft policy framework has been developed with MoL followed by consultations with relevant staff within the ministry. This has resulted in further revisions applied to the draft policy which is expected to be finalized in 2023. As for SSC, work on the gender responsive policy will commence in 2023 following the assessment findings.
