STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

By 2025, all people in Kazakhstan, especially the most vulnerable are empowered with knowledge and skills to equally contribute to the sustainable development of the country (UNSDCF Outcome 1.2.)

The outcome has not been achieved yet, however, UN Women Kazakhstan made substantial progress on the outcome in 2022. The Voluntary National Review (VNR) on the progress of SDGs implementation in Kazakhstan was visibly gender mainstreamed during development and Kazakhstan's presentation at the High-Level Political Forum in New York in May 2022. International and national communities gained awareness of the progress, achievements, challenges and lessons learned in the implementation of SDGs at the national level through the VNR. <https://hlpf.un.org/countries/kazakhstan/voluntary-national-review-2022> UN Women contributed significantly to the results reflected in VNR by showcasing the outcomes of the joint project with the Government of Kazakhstan on the integration of Gender Responsive Budgeting in the national planning and budgeting system. More specifically, UN Women developed the methodology and conducted gender analysis of planning and budgeting processes with the example of the Akmola region at the local level and the Ministry of Education at the central level, in the area of education, healthcare and social protection. In addition, UN Women ensured the integration of a gender dimension into the entire VNR document. The National Women's Machinery recognised the role of UN Women's significant contribution in supporting the Government of Kazakhstan and national partners in advancing Gender Responsive Budgeting as well as demonstrating it on the global level through highlighting the VNR. UN Women successfully cooperated with the National Women's Machinery, the Ministry of National Economy, the Economic Research Institute, the Applied Economic Research Centre, the Akmola region Local Administration, and the Ministry of Education through this work. Thus, the original strategy and ToC for this outcome is still largely applicable.
