STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2022

A more gendered humanitarian response is ensured.

UN Women advanced in achieving a more gendered humanitarian response. To achieve this, a project proposal titled "Promoting Localized Gender Accountability to Address Inequality and Gender-Based Violence in Humanitarian Crisis" was developed and approved for implementation in Guatemala, Colombia, and Haiti. This mentioned-above project aims at strengthening UN Women's coordination mandate and its gender mainstreaming actions in humanitarian affairs. In August 2022, the biannual Humanitarian Response Plan (HRP) 2022-2023 for Venezuela was published. The document consulted 22 women's organizations in the Humanitarian Needs Overview (HNO). Thanks to the UN Women-OCHA-Gencap joint work, the HRP includes the following: A gender chapter. A new gender coordination mechanism. A roadmap for integrating the gender approach in humanitarian action. As for the Interagency Coordination Platform for Refugees and Migrants from Venezuela (R4V), gender focus was mainstreamed in the 2023-2024 Response Plan (RMRP), and a specific gender chapter was elaborated, reflecting that 92% of R4V partners incorporated gender equality measures in their planning, compared to 80% in 2021. Nevertheless, 15% of R4V partners did not conduct gender analysis to tailor their programs. Therefore, UN Women developed an action plan to strengthen gender mainstreaming for the 2023-2024 RMRP. Finally, humanitarian Response Plans were elaboratd in Colombia, Venezuela, Ecuador, Guatemala, El Salvador, and Honduras, with the support of UN Women, Peace, and Security-and Humanitarian Action team.
