Outcome Description

The root causes of civil war remain unaddressed. Despite the gains made in maintaining national peace and security, the root causes of the country's 14-year civil war, remained unaddressed. The triggers of conflict include a) an unfinished business of peace and reconciliation and a slow national reconciliation process.

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

By 2024, the most vulnerable and excluded groups have improved quality of life with rights-based, gender sensitive ,inclusive, equitable access and utilization of essential social services in an environment free of discrimination and violence including in humanitarian situations.

Efforts were increased to ensure rights-based, gender inclusive and equitable access and utilization of essential services by women from the most vulnerable and excluded groups. 58 organizations representing groups facing multiple and intersecting forms of violence and discrimination were identified in a CSO mapping exercise conducted across five Spotlight counties. These categories include LGBTIQ persons, people with HIV/AIDs, persons with vision impairment, hearing impairment, physical disability, old persons, disadvantaged youth, and persons affected by leprosy. 50 out of the 58 organizations are located in Montserrado county, whereas Grand Gedeh and Nimba reorded only 1 organization each. 26 out of the 50 organizations represent people with physical disabilities. The mapping of these organizations is expected to inform service providers to implement targeted programmes and the Spotlight Initiative grant programme to target the most vulnerable populations.
