Country-Level Data for Mali country Outcome XM-DAC-41146-MLI_D_4.1

OUTCOME MLI_D_4.1   XM-DAC-41146-MLI_D_4.1

By 2024, people are resilient to conflict, live reconciled and in harmony in a peaceful and secure environment that respects human rights and positive cultural traditions. (Related to SP_D_4.1 : More commitments on women, peace and security are implemented by Member States and the UN system, and more gender equality advocates influence peace and security processes)

OUTCOME DETAILS

SDG alignment

Impact areas

Women, peace and security, humanitarian action and disaster risk reduction

Organizational outputs

Norms, laws, policies and institutions

Women's voice, leadership and agency

Policy Marker

GENDER EQUALITY

Outcome Description

Reinforcing national capacities to implement and monitor the Women, Peace and Security agenda, the R1325 National Action Plan, the Peace Agreement and the National Strategy on Reconciliation; Reinforcing capacities to prevent and manage community conflicts, including those related to natural resources and violent extremism, in an inclusive manner; facilitating the integration/reintegration of returnees and displaced persons and humanitarian access. Enhancing technical and operational capabilities to respect women's rights and ensure their security, physical and mental health as well as their socio-economic resilience and their needs in the justice processes; strengthened capacities to develop a functional and effective judicial system accessible to populations and to specific groups (GBV/SVLC survivors, etc.) and apply gender, participatory and inclusive approaches.

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

By 2024, people are resilient to conflict, live reconciled and in harmony in a peaceful and secure environment that respects human rights and positive cultural traditions. (Related to SP_D_4.1 : More commitments on women, peace and security are implemented by Member States and the UN system, and more gender equality advocates influence peace and security processes)

9 women members of the monitoring committee influence the implementation of the peace and reconciliation agreement of the Algiers process (CSA) which is the strategic body for monitoring of the peace process. The appointments of 3 new women to the CSA and 12 women to the sub-committees are also finalized in 2022. UN Women has contributed to this outcome through advocacy with the Government, the parties to the Agreement, the International Community and by providing technical and financial support to the capacity building programme for women and men members of the CSA. UN Women worked with key partners such as MINUSMA (Gender and Mediation Units), Folke Bernadotte Academy (FBA), the Norwegian Embassy that advocated for women's participation in the CSA and also provided technical support and funded training activities. Women civil society leaders have also been advocating and follow up the recommendations of the high-level workshop on women's participation. Women members of peace huts, peace committees, women mediators influence the prevention and resolution of local conflicts in the regions of Mopti, Gao, Timbuktu, Ménaka and Kidal. UN Women has strengthened the technical capacities of women leaders, advocated with regional and local authorities to open up peace mechanisms to women, supported dialogue on peace and social cohesion initiatives, and brought women into contact with authorities and influential men. The local women's coordination organisations and the NGO implementing partners mobilized the actors, ensuring their mobilization and capacity building. Women contribute to the resilience of their families and communities by improving their food security and income through the establishment of cereal banks, market gardens, seed stocks, soap production and the processing of agri-food products in Mopti, Gao, Timbuktu, Ménaka and Kidal. Their contribution helps to improve social cohesion between community members by reducing the risk of conflict linked to food insecurity, and has strengthened the bonds of social cohesion, mutual aid and solidarity between women from different communities through collective activities. The resources generated are used for family expenses, especially for children (purchase of clothes, health care, school supplies, meals for children at school). UN Women has

financed economic recovery activities, strengthened the technical capacities of the targets, equipped the groups and peace huts with production and processing equipments. The regional directorates for the promotion of women, agriculture and hydraulics provided technical assistance and monitoring of the activities. Implementing NGOs trained the women's groups, informed the authorities and provided advisory support to the beneficiaries. FAO also funded and provided technical support as co-implementing agency in Mopti region. Women and girls benefit more from the coordinated humanitarian response through improved targeting, systematic disaggregation of data and consideration of their specific needs in protection, food security, health and NFIs assistance. UN Women provided technical support for the development and implementation of the roadmap on gender mainstreaming in humanitarian action and the gender strategy of the Humanitarian Country Team, funded capacity building of humanitarian actors in Timbuktu, Gao, Kidal, Ménaka, Mopti, Ségou and the District of Bamako, and advocated for funding of the roadmap. The Ministry of Health and Social Development and the Ministry for Humanitarian Action provided technical support, particularly in terms of targeting and monitoring. OCHA and NRC contributed to the funding of the actions. UN Women strengthened its leadership within the Humanitarian Country Team (HCT) through the implementation of the roadmap for gender mainstreaming in humanitarian action. As part of the implementation of this roadmap, UN Women ensured the coordination of the Cluster Gender Focal Point Network (CGFPN) with OCHA and the implementation of the 2022 work plan. A capacity building plan for humanitarian actors on Gender in Humanitarian Action, in alignment with the Roadmap, was implemented with the technical and financial support of UN Women and OCHA Mali. They have helped to strengthen the specific knowledge on gender of humanitarian actors. The application of the knowledge received by the humanitarian actors allowed for inclusive targeting, systematic disaggregation of data by sex and age and consideration of the specific needs of women and girls.
