STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

An enabling environment exists in Nigeria to support the implementation of WPS commitments at local, state and federal levels, by 2022

About 50% of the resources were utilized during the period under review. Due to the forth coming general elections in Nigeria, some major activities were deferred to 2023. For example, a significant number of the law makers in National and State Assemblies will not be returned to power, hence the need to invest more on the incoming legislators who will be in power for at least four years.
