STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

SP OEE Outcome Area 1: Effective products, services and normative, programmatic and coordination processes: UN Women efficiently and effectively fulfills all institutional processes that promote the integrated execution of its normative, programmatic, and coordination mandate at headquarters, regional, and national levels; including through shared services.

The CO continues to effectively and efficiently fulfil all institutional processes through the following: The BOS was approved and the OMT is making a roadmap for the implementation of the BOS. As co-leader of the GIG, in coordination with UNFPA and OCR, UN Women led different coordination processes in its contribution to gender mainstreaming in joint programming within the UNS, applying the Gender Marker methodology through a analysis tool of the gender approach in the groups of results established in the UNSDCF. Likewise, in follow-up to the UNCT-SWAP Gender Scorecard roadmap, progress was made with actions to strengthen capacities in gender equality for UNS personnel. Security and Safety Compliance Survey completed with a Score for Guatemala CO of 97%. Ensured an adequate migration of the operational processes to the new Quantum platform, thanks to the participation of a person from the operations team in LAC Quantum Training: Travel and Procurement Modules. This has allowed the knowledge acquired to be replicated by the entire CO team
