## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

**SN Outcome 2 (CF Outcome 3). Shared Prosperity through Economic Transformation By 2026, people in Viet Nam, especially those at risk of being left behind, will contribute to and benefit equitably from more sustainable, inclusive and gender-responsive economic transformation based on innovation, entrepreneurship, enhanced productivity, competitiveness, and decent work.**

The outcome was on track in the reporting year. The new Circular 06/2022/TT-BKHĐT guiding some provisions of the Decree 80/2021 NĐCP regulating details and guidance of the SMEs' Supporting Law was adopted by the Vice-Minister of Planning and Investment in May 2022 <https://thuvienphapluat.vn/van-ban/Doanh-nghiep/Thong-tu-06-2022-TT-BKHDT-huong-dan-Nghi-dinh-80-2021-ND-CP-514234.aspx> . UN Women's technical support was made it possible through a strong partnership with the Agency for Enterprises Development of the Ministry of Planning and Investment (AED &dash; MPI) in making joint gender review to assess the implementation of the related Law and Decree which provided evidence-based recommendations, organizing technical consultation and policy advocacy workshops with related public and private stakeholders for gender mainstreaming in the new Circular. As the result, the Circular included gender responsive regulations such: (i) the recognition of &ldquo;women-owned SMEs&rdquo; and &ldquo;enterprises that employ many women workers;&rdquo; and (ii) the requirement for SMEs supporting agencies and organizations to prioritize budget for supporting women-owned SMEs and enterprises that employ many women workers and social SMEs. This new Circular will bring positive impact and benefits to millions of women-owned enterprises, women entrepreneurs, and enterprises that employ many women workers, contribute to more sustainable, inclusive and gender-responsive economic transformation. UN Women worked to strengthen relevant government partners' accountability to gender equality and women's economic empowerment in order to improve innovation capacities and increase productivity and profitability of sustainable resilient livelihood models. At national level UN Women documented good examples and initiatives by the

Vietnam Women Union on women's economic empowerment, later shared at National Forum on Agriculture and Extension Services, with the participation of Agriculture Extension Services leaders from 63 provinces. UN Women has actively strengthened the capacity of relevant stakeholders in mainstreaming gender into financial strategies to 2030 of Viet Nam and advocating for the development of an integrated financial framework toward achieving SDGs in Viet Nam. The achievement of this Outcome in 2022 has contributed to more sustainable, inclusive and gender-responsive economic transformation based on women entrepreneurship development policies, sustainable resilient livelihood, and financing for gender equality which contribute to the achievement of SDG 5, 8 and SDG 10.
