Data as of:
25 April 2024

OUTCOME YEM_D_4.2 [XM-DAC-41146-YEM_D_4.2](#)

Women have access and are served by humanitarian responses and recovery processes in Yemen

OUTCOME DETAILS

SDG alignment

Impact areas

Women's economic empowerment

Women, peace and security, humanitarian action and disaster risk reduction

Organizational outputs

Access to services, goods and resources

Women's voice, leadership and agency

Policy Marker

GENDER EQUALITY

Outcome Description

UN Women under this impact area will closely interlinks and builds synergies by strengthening women's agency, leadership and participation to rebuild their lives, humanitarian status in situations of crisis and conflict

Humanitarian Scope

Yes

UN System Function

–

Capacity development and technical assistance

Support functions

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Women have access and are served by humanitarian responses and recovery processes in Yemen

In 2022, 12,014 Yemeni women accessed humanitarian response and recovery services provided by UN Women. Specifically, 11,121 women and girls GBV survivors accessed psychosocial support, protection and legal services, including through a dedicated hotline and referral systems. Two (2) women's centers in Aden and Taiz are now providing enhanced GBV, protection and childcare services to vulnerable women, and apply minimum standard requirements. UN Women rehabilitated and expanded the women's centers which are now well equipped and able to provide a comprehensive set of protection services - including legal aid, case management, counselling, awareness raising, health care and childcare services - to a significantly wider number of women and girls GBV survivors and/or at risk of GBV (presently attending 300 beneficiaries per month compared to the previous 70 monthly beneficiaries). Furthermore, 107 service providers in Aden and Taiz enhanced their knowledge and skills on gender responsive and operational standard-based psycho-social support for GBV survivors and women and girls at risk of GBV which led to enhanced high-quality service provision. Additionally, 893 women accessed economic empowerment support in the form of resources (small grants), information and capacity building, goods, and services, through UN Women-supported projects. UN organizations, government agencies and civil society representatives also increased their knowledge and understanding of issues related to the protection and promotion of women and girls' rights through their active engagement in advocacy and coordination efforts led by UN Women.
